  26 The JBI Model of Evidence-based Healthcare

JBI Collaboration Handbook - 2020
INTRODUCTION

The JBI Collaboration has existed since JBI’s inception in 1996.

The JBI Collaboration (JBIC) has grown from a small group of seven Centres, located predominantly in Australia, to more than 70 Collaborating Entities across the world. The JBIC and JBI in Adelaide, are driven by a united desire to contribute to improvements in the quality and outcomes of healthcare globally. Our collective vision, mission and values are as follows:

 OUR VISION

Better evidence, better outcomes, brighter future

 OUR MISSION

To promote and support evidence-based healthcare

 OUR VALUES

LEADERSHIP: The courage to shape a brighter future

COLLABORATION: Leverage diversity and collective intellect

QUALITY: A focus on achieving excellence and value

CREATIVITY: To be bold, brave and daring in all that we do

SUSTAINABILITY: Ensuring we can achieve impact for future generations

 OUR GOALS

To be a global leader in evidence-based healthcare, providing high quality resources to improve outcomes at the point of care
Integral to this mission and vision, the JBIC is a robust and thriving group that are at the forefront of cultural change in the healthcare industry as each Collaborating Entity continues to lead evidence based initiatives in their region, country, state or specialty. As a global evidence network, the JBI Collaboration:

- Offers a platform for sharing knowledge and growing expertise globally, working towards a common goal, across disciplines and perspectives
- Facilitates better understanding of one another, of decision-making, of policy processes, of challenges and successes and how we can make a difference to build a critical mass of health professionals, scientists, knowledge brokers and decision makers using evidence to improve health outcomes
- Provides access to scientific resources, training, expertise and ideas and opportunities for individual and institutional capacity building
- Fosters innovation, resource mobilisation, and mentorship
- Extends the reach and influence of members’ ideas and initiatives
- Addresses the challenge of developing different methodologies for synthesising different types of evidence, to ensure the best available evidence can be used
- Has strong leadership and champions within the collaboration that infuse passion
- Has diversified membership, with increasingly multisectoral engagement
- Has grown, adapted and transformed to achieve its purpose, respond to members’ needs and to opportunities and challenges in the global evidence community

It is vitally important that JBI and the Collaboration are always open to new ways of working together. However, it is also important that some operational guidelines are in place to ensure a smooth, fair and equitable relationship that values difference between groups and identifies mutual benefit. The guidelines set out in this handbook are designed to achieve this.

We trust that you will find your experience of collaboration with JBI a fruitful and rewarding one, and we look forward to working with you as part of this diverse and innovative group.

Prof Zoe Jordan
Executive Director, JBI

‘COLLABORATION THRIVES ON DIVERSITY OF PERSPECTIVES AND CONSTRUCTIVE DIALOGUE BETWEEN INDIVIDUALS NEGOTIATING THEIR DIFFERENCES, WHILE SHARING [A] VOICE AND VISION.’

Vera John-Steiner
SECTION 1:
STRUCTURE

The JBIC has a framework through which it recognises Collaborating Entities as “JBI Centres of Excellence” and “JBI Affiliated Groups” that contribute to furthering the vision and mission of JBI globally. This structure is managed both regionally, to foster regional collaborative efforts and mentorship and support of novice groups by more experienced ones, and internationally through JBI in Adelaide in order to maintain JBI’s international focus and, where appropriate, to foster inter-regional collaboration.

JBI CENTRES OF EXCELLENCE

These Centres have established themselves as a prestigious hub of expertise, through which high quality programs of evidence synthesis, transfer and implementation are achieved. They are recognised by JBI as an Entity that provides leadership, support, guidance and mentorship to novice groups, and they meet the required competencies and key performance indicators as set out by JBI. JBI Centres of Excellence are eligible to receive funding from JBI for activities including attendance of the Centre Director, or their proxy, at the annual general meeting.

JBI COMMITTEE OF DIRECTORS

The Committee of Directors (CoD) is the principal strategic planning committee of the JBI Collaboration. The Committee of Directors consists of the JBI Executive Director (Chair), all JBI Centre of Excellence Directors, and the Executive staff of the Joanna Briggs Institute.

The Committee of Directors meet twice per year, once online and once face to face, of which the location changes annually. Affiliated Group Convenors are invited to attend and participate in all CoD meetings as observers.

JBI AFFILIATED GROUPS

These Groups are committed to promoting and supporting evidence synthesis, transfer and implementation. They are smaller, tactical groups of skilled clinicians, academics and scientists with a defined focus who operationalise JBI method and methodology within their jurisdiction. JBI Affiliated Groups are not eligible to receive funding from JBI, but are supported through access to resources and are welcome and encouraged to attend the annual general meeting of the JBIC.

All JBI Affiliated Groups have the opportunity to become Centres of Excellence if they meet the required competencies and key performance indicators as set out by JBI after 12 months (see pages 7 & 8).

REGIONS

The JBIC is situated across five regions (Americas, Asia, Australasia, Africa and Europe). Each region is comprised of Centres of Excellence and Affiliated Groups that work together to promote and support evidence informed approaches to the delivery of health policy and practice in their region. Regions are encouraged to be politically active and to drive change related to how evidence synthesis, transfer and implementation are recognised and valued at institutional and government levels.

REGIONAL CHAIRS

Each region has a governance structure based upon a Regional Chair who is nominated and elected by Entities within the Region and must be situated within a JBI Centre of Excellence. Regional Chairs are responsible for coordinating regional communication and activity/events and for fostering regional collaboration. Regional Chairs serve for a term of one year and are remunerated for their investment in this role. Co-Chair or Deputy Chair appointments per region are welcome, particularly where the Co-Chair/Deputy Chair is Chair Elect for the coming year.

JBI GLOBAL ENGAGEMENT OFFICE

The JBI Global Engagement Office (GEO) exists to facilitate the operation and administration of the JBI Collaboration and its 70+ Collaborating Entities. The GEO provides administrative, management and strategic support to Collaborating Entities from application to formation and beyond. The GEO plans and facilitates all CoD meetings; development of resources and materials; general communication; and maintains systems for:

- Monitoring and feedback;
- Engagement with regions and regional chairs; and
- Policy development and review.

JBI RESOURCE PORTAL

The JBI Resource Portal is on JBI’s Global Wiki Platform and is designed and maintained exclusively for the use of JBI Entities. It has been developed to provide the JBI with current resources pertaining to their collaborative activities. This includes administrative information and communication, policies and procedures and resources to assist in the conduct of Systematic Reviews, and other JBI Matrix activities.

The JBI Resource Portal is available at:
https://wiki.joannabriggs.org/display/JBCI/About+JBC

JBI HANDBOOK

The JBI Handbook is the terms of reference by which Collaborating Entities operate and are held accountable, as per their legal Agreement with JBI. The Handbook is updated annually following the Annual Review of Entity Activity and is ratified at the Committee of Directors meeting.
The JBI Collaboration operates under a Matrix framework whereby Collaborating Entities receive recognition for their activities via a points system.

This system (see ‘JBIC Activity Matrix’ below) has been devised in order to formally acknowledge the important scientific and scholarly contributions of Entities to the ongoing mission of JBI globally and to ensure an equitable and sustainable international organisation.

**ENTITY TERMS OF AGREEMENT**

**JBI Affiliated Groups**

All new Collaborating Entities enter the JBI Collaboration with the status of an Affiliated Group. Affiliated Groups may focus on evidence synthesis, evidence transfer, evidence implementation or a combination of these foci.

Affiliated Groups may be independent, or aligned with a Centre of Excellence. Affiliated Groups that are aligned with a Centre of Excellence may choose to credit any eligible points for their Group activity to their nominated Centre of Excellence, in return for support, mentorship and guidance provided by the Centre. Should an Affiliated Group seek to become a Centre of Excellence, the process outlined under ‘Entity Application Process’ on page 8 of this Handbook should to be followed.

Affiliated Groups sign a 5-year Agreement with JBI, with the first two years or part thereof being introductory years to establish the Group and its JBI activities. Entities have until the completion of their 5 year Agreement with JBI to meet their Key Performance Requirements.

**1. Terms of agreement**

In order to qualify for and maintain Affiliated Group membership, an Affiliated Group must:

1.1 be a self-governing and self-funding group of persons (individual or corporate).

1.2 consist of at least three core staff who:-

1.2.1 are tertiary qualified graduates with research training;

1.2.2 have, and can demonstrate, strong professional leadership skills;

1.2.3 can evidence a track-record of research capability; and

1.2.4 have successfully completed a JBI Comprehensive Systematic Review Training Program or JBI Evidence Based Clinical Fellowship Program.

1.3 cover all costs in connection with the establishment and operation of the Group;

1.4 possess sufficient resources to conduct systematic reviews or implementation reports;

1.5 manage the Collaborative Activities of the Group in the manner prescribed for such activities in this Handbook;

1.6 perform such core and elective Matrix activities as are sufficient to enable the Group to meet the standard for continuing membership as a JBI Affiliated Group as described in this Handbook;

1.7 participate in an annual formative review of Group activities in the first four years of their 5-year agreement with JBI; and

1.8 participate in a summative review of its Group activities prior to the Completion Date of their Agreement in accordance with this Handbook.

**2. Key Performance Requirements**

Affiliated Groups are required, at a minimum, to meet the following KPIs over the term of their 5-year Agreement with JBI:

2.1 accrue a minimum of 30,000 points from core activities, equivalent to three (3) systematic review reports or implementation reports accepted for publication; and

2.2 participate in the JBISRIR peer review process including systematic review protocols, systematic reviews and implementation reports.

Affiliated Groups who wish to apply for Centre of Excellence status are required to meet the following KPIs to be eligible to submit an application:

2.3 have operated as an Affiliated Group for a minimum of 12 months; and

2.4 have accrued a minimum of 23,000 points in one (1) year, as per the JBIC Activity Matrix in Section 2 of this Handbook, including at least 10,000 points from core activities.

**3. Support from JBI**

JBI shall provide, at a minimum, the following support to Affiliated Groups:

3.1 access to the Global Engagement Office;

3.2 access to the JBI EBP Database and JBI Software via Ovid for the Group Convenor and up to ten (10) Group Core Staff for the purposes of undertaking JBI Collaboration work;

3.3 an online presence via the JBI website;

3.4 access to standard JBI promotional materials electronically;

3.5 if eligible, one complimentary Ovid subscription to the JBI EBP Database and JBI Software for one single site healthcare facility that works in collaboration with the Group (see Clinical Partnership Engagement, page 14);

3.6 license to use the registered JBI name and trademark.
**JBI Centres of Excellence**

JBI Centres of Excellence sign a 3-year Agreement with JBI, with an Effective Start date of 1st January the year following their Agreement Signing Date. This is to align with JBI’s calendar year annual review period for collaboration activities. Entities have until the completion of their 3-year Agreement with JBI to meet their Key Performance Requirements.

### 1. Terms of agreement

In order to qualify for and maintain Centre of Excellence membership, a Centre of Excellence must:

1.1 establish the Centre within one month after the Effective Start Date of their Agreement with JBI;
1.2 appoint a Director of the Centre who will manage the Centre in accordance with, and to such standards specified in, this Handbook;
1.3 be a self-governing and self-funding group of persons (individual or corporate);
1.4 cover all costs in connection with the establishment and operation of the Centre;
1.5 ensure that a minimum of three core staff have successfully completed a JBI Comprehensive Systematic Review Training Program or JBI Evidence Based Clinical Fellowship Program at all times;
1.6 manage the Collaborative Activities of the Centre in the manner prescribed for such activities in this Handbook;
1.7 perform such Core and Elective Key Performance Activities as are sufficient to enable the Centre to meet the standard for continuing membership as a JBI Centre of Excellence as described in this Handbook;
1.8 participate in an annual formative review of Centre activities in years one and two of their 3-year agreement with JBI; and
1.9 participate in a summative review of its Centre Activities prior to the Completion Date of their Agreement in accordance with this Handbook.

### 2. Key Performance Requirements

Centres of Excellence are required, at a minimum, to meet the following KPIs by the Completion Date of their 3-year Agreement with JBI:

2.1 accrue a minimum of 69,000 points from core and elective activities completed in line with the JBIC Activity Matrix in this Handbook; including

2.2 a minimum of 30,000 points from core activities which is equal to three (3) systematic reviews or implementation reports accepted for publication in the JBISRIR.

Centres who do not meet the above KPIs by the completion date of their Agreement with JBI will either:

2.3 be varied to Affiliated Group membership if they have achieved 30,000 points or more by the end of their summative assessment. Once membership has been varied, points may not be carried across to a new Agreement. Centres that are varied to Affiliated Group membership will need to maintain at least 12 months of Affiliated Group membership, and achieve the requisite points within that calendar year before re-applying for Centre of Excellence membership; or

2.4 be disestablished if they achieve less than 30,000 points by the end of their summative assessment. Entities that are disestablished must wait at least 12 months before they are eligible to reapply to become an Affiliated Group.

### 3. Support from JBI

JBI shall provide, at a minimum, the following support to Centres of Excellence:

3.1 access to the Global Engagement Office;
3.2 access to the JBI EBP Database and JBI Software for the Centre Director, Deputy Director and up to ten (10) Group Core Staff for the purposes of undertaking JBI Collaboration work;
3.3 complimentary monthly subscription to JBISRIR for Centre of Excellence Director
3.4 an online presence via the JBI website;
3.5 access to standard JBI standard promotional materials electronically;
3.6 license to use the registered JBI name and trademark;
3.7 if eligible, one return economy class discount airfare for the Centre Director or nominated proxy to attend the annual face to face Committee of Directors meeting and associated Convention/ Colloquium in full;
3.8 if eligible, one complimentary Ovid subscription to the JBI EBP Database and JBI Software for one single healthcare facility that works in collaboration with the Centre (see Clinical Partnership Engagement, page 17); and
3.9 if eligible, funding for output of prescribed core and elective activities up to a maximum amount of AUD $10,000 per annum (as per the JBIC Activity Matrix in this Handbook).

### ENTITY APPLICATION PROCESS

Entities seeking formal collaboration with JBI can apply to become a JBI Affiliated Group. All Entities who join the JBIC begin as Affiliated Groups and are required to exist for a minimum period of 12 months before applying to have their membership elevated to a JBI Centre of Excellence. Affiliated Groups must also demonstrate successful engagement with JBIC activities and accrue the minimum points required for consideration as a Centre of Excellence.

### JBI Affiliated Groups

Entities wishing to apply to become a JBI Affiliated Group are required to complete an application form available from the Global Engagement Office at jbic@adelaide.edu.au. Applications should be addressed to the Executive Director of JBI and must include:

- An overview of the institution’s Organisational Structure
- The name and Curriculum Vitae (CV) of the proposed Group Convenor
- The names and Curriculum Vitae (CV) of each proposed Group Member
- An outline of the proposed area of interest including planned JBIC activities and outputs
- Details of the financial and physical resources available to the proposed Affiliated Group

The application is then reviewed internally by the JBI Global Engagement Office, with the JBI Executive Director granting final approval. Approved Groups are required to sign a JBI Legal Agreement which holds a 5 year term. If an Affiliated Group wishes to align or partner with a Centre of Excellence they may do so, however such an agreement is independent of JBI.

Applications approved prior to June 30 will have the option to backdate the Centre of Excellence Agreement to 1 January preceding the signing date.
However, applications approved from 1 July onwards will automatically result in the Agreements being Effective from 1 January following the signing date.

**JBI Centres of Excellence**

Once an Affiliated Group has existed for at least 12 months and has met the required competencies and key performance indicators as set out by JBI they may apply to become a Centre of Excellence. Entities must submit their JBIC Entity Annual Review Report (template available from the JBIC Resource Portal) demonstrating that they have met the minimum key performance criteria within a 12 month period. along with a Cover Letter addressed to the JBI Executive Director requesting a varying of their Affiliated Group membership to Centre of Excellence, to the Global Engagement Office jbic@adelaide.edu.au. The documentation is then reviewed internally by JBI, with the JBI Executive Director granting final approval.

Approved Centres of Excellence are required to sign a JBI Legal Agreement which holds a 3-year term. The Effective Start Date of the Agreement will be 1 January, to align with the calendar year reporting and funding period.

Applications approved prior to June 30 will have the option to backdate the Centre of Excellence Agreement to 1 January preceding the signing date. However, applications approved from 1 July onwards will automatically result in the Agreements being Effective from 1 January following the signing date. Newly established Centres of Excellence will only be eligible for funding following the Effective Start Date of their Centre of Excellence Agreement.

If an Affiliated Group is aligned with a Centre of Excellence and wishes to alter their agreement with regards to points accrual or transfer they must follow the process outlined in this handbook.

**ENTITY NAMING CONVENTIONS**

Entities are encouraged to establish themselves under a title that describes their area of focus, be that regional/jurisdictional or specialty. All Centre and Group titles will be followed by a statement pertaining to their membership as a ‘JBI Centre of Excellence’ or ‘JBI Affiliated Group’. Newly formed Entities should consider the structure and focus of all JBI Entities in their region and be mindful of the names and roles of those Entities.

For example:

The Adelaide Centre for Chronic Disease Management:  
A JBI Centre of Excellence;  
OR  
The Adelaide Centre for Chronic Disease Management:  
A JBI Affiliated Group

**ENTITY DISESTABLISHMENT PROCESS**

Where an Entity wishes to withdraw from a Centre of Excellence or Affiliated Group Agreement they must:

1. Provide not less than three months written notice to the JBI Executive Director (unless an earlier termination is agreed by the Parties in writing);
2. Return any and all materials (marketing/teaching or otherwise) to JBI as well as remove any online reference to JBI and associated logos;
3. Undertake to delete any and all electronic copies of JBI Intellectual Property, including that pertaining to short course delivery;
4. The Entity will notify their clinical partner that complementary access to JBI tools and resources will cease within three months of the date of termination;
5. The withdrawing Collaborating Entity shall appropriately dispose of all JBI materials provided by JBI for the operation of the Collaborating Entity including but not limited to promotional materials, letterheads, pens, BPIS, business cards, display materials etc. and that the costs of disposal of above mentioned materials be the responsibility of the withdrawing Collaborating Entity;
6. The withdrawing Collaborating Entity shall cease to use and return to JBI all JBI intellectual property and/or records supplied by JBI. Membership mailing lists provided to the Collaborating entity remain the property of JBI and shall not be used by the withdrawing Collaborating Entity for any reason without prior consent of JBI;
7. JBI shall remove reference to the withdrawing Collaborating Entity from the official JBI webpage and other promotional materials;
8. JBI shall terminate the clinical partner three-year Ovid subscription (if one is in place). It is the duty of the Collaborating Entity to inform their Clinical Partner of the subscription termination.
9. JBI shall remove membership access rights to the JBI website, COnNECT+, SUMARI (and other similar packages held by JBI) that had been provided to the withdrawing Collaborating Entity gratis as a benefit of collaboration. Any data and/or publications stored electronically by JBI remain the copyright of JBI, however the withdrawing Collaborating Entity’s host institutions or staff retains authorship. The Author(s) agree that any future publications by the author(s) referring to work undertaken during the term of collaboration shall acknowledge the other parties; and
10. The withdrawing Collaborating Entity shall provide JBI with an activity statement for all JBI Collaboration activities up to the termination date for the JBI Annual Report.
**JBIC ACTIVITY MATRIX**

The JBIC Activity Matrix enables Affiliated Groups and Centres of Excellence to accrue points across a variety of core and elective activities over the course of their Agreement with JBI, in line with the Key Performance Requirements for each Entity outlined in this Handbook. The minimum number of points required to become a Centre of Excellence is 23,000 across all core and a range of elective activities (with a minimum of 10,000 points from core activities). Detailed descriptions of activities, KPIs and Activity Matrix operational guidelines are outlined in detail below.

**ACTIVITY MATRIX**

<tr>
<td>Must have had a protocol accepted for publication in the JBIES - Must have had a Systematic Review Update accepted for publication in the JBIES; - Entity Affiliation [Full Entity name as per legal agreement] must be listed in the ‘Institution’ field of each reviewer’s Editorial Manager profile (as per the guidelines in the JBI Reviewer’s Manual)</td>
</tr>
<tr>
<td><strong>10. Publication of scholarly works on JBI methods and methodologies</strong></td>
</tr>
<tr>
<td>Must have author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, including their full Entity name as per their Legal Agreement with JBI; AND Be clearly identifiable as a publication that relates to furthering the scholarly work of JBI/JBIC in the field of evidence synthesis, transfer or implementation</td>
</tr>
<tr>
<td><strong>11. JBI Systematic Reviews or Implementation Reports published in other journals</strong></td>
</tr>
<tr>
<td>Must have author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, including their full Entity name as per their Legal Agreement with JBI; AND - Be clearly identifiable as a SR or IR that has followed JBI methodology and method - Publications must be originals and not derivatives or duplicates (including co-publication) of material already published in the JBIES or JBIEvI).</td>
</tr>
<tr>
<td>Key Performance Indicator</td>
</tr>
<tr>
<td>---------------------------</td>
</tr>
<tr>
<td>12. Derivative publications published in other journals</td>
</tr>
<tr>
<td>Must provide evidence of written approval from the JBI ES Editorial Office AND - Include an author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, - Including full Entity name as per their Legal Agreement with JBI; - Must make explicit reference to the original publication in the JBI ES.</td>
</tr>
<tr>
<td>13. JBI Education Programs: Evidenced Based Clinical Fellowship Program</td>
</tr>
<tr>
<td>Must have run at least one complete Evidence Based Clinical Fellowship Program in the preceding 12 months (points allocated per registrant). Note: This is a 6-month program incorporating x2 intensive training weeks and interim facilitation.</td>
</tr>
<tr>
<td>14. JBI Education Programs: Comprehensive Systematic Review Training Program</td>
</tr>
<tr>
<td>Must have run the equivalent of at least one full week of Comprehensive Systematic Review training in the preceding 12 months (points allocated per registrant). Note that this does not require a full five day program to be run in one continuous week.</td>
</tr>
<tr>
<td>15. Regional Chair responsibilities (1 year term).</td>
</tr>
<tr>
<td>Must produce an annual report to JBI listing collaborative activities undertaken in the preceding 12 months no later than 31 January (including, but not limited to regional meetings/events, teleconferences, collaborative work in relation to evidence synthesis, transfer or implementation); AND Must produce a regional operational plan using the JBI template no later than 31 January; AND Must facilitate one annual face-to-face meeting and one teleconference per year (dates/agenda/minutes to be provided as evidence with annual report)</td>
</tr>
<tr>
<td>16. Host a JBI/JBIC Symposium</td>
</tr>
<tr>
<td>Must have organised a minimum one-day event that promotes the work of JBI, the JBI Model and/or methodologies; AND Is open to registration by participants outside of the hosting organisation and (where applicable) the clinical partner; AND Complies the naming and branding guidelines in this handbook.</td>
</tr>
<tr>
<td>17. Host JBI Colloquium</td>

Minimum Points Required to Achieve and Maintain JBI Centre of Excellence Membership = 69,000 by the end of the three-year Entity Agreement

Minimum Points Required to Achieve and Maintain JBI Affiliated Group Membership = 30,000 by the end of the five-year Entity Agreement

Important Notes:

- Funding is only provided for a Clinical Partner Ovid subscription where JBI Implementation related KPI’s are met within the three year registration of the Clinical Partner Engagement matrix activity.
- All activities must be undertaken within the current (calendar) reporting year in order to be recognised for credit points.
- Activity funding is available for JBI Centres of Excellence ONLY and will be “capped” at $10,000AUD per Centre (excluding funding to attend the face to face Committee of Directors meetings, Clinical Partner Subscription fees, Regional Chair funding and JBI Colloquium seed funding).
ACTIVITY DESCRIPTIONS AND EXPECTATIONS

Core

Core activities reflect the JBI Model of EBHC, and reflect the strategic priorities for JBI and JBIC. Each Entity will need to select at least one of the two listed core activities: Systematic Reviews or Implementation Reports.

Systematic Reviews

A JBI Systematic Review is one that follows JBI methodology and methods, utilises the JBI System for the Unified Management, Assessment and Review of Information (JBI- SUMARI) and is published in the JBI ES.

To accrue points for this as a core activity an Entity must have:

a) a Systematic Review accepted for publication in the JBI ES and
b) an author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, including their full Entity name as per their Legal Agreement with JBI Centres of Excellence are eligible to receive $3,000AUD per review accepted for publication, up to a maximum of $10,000AUD per calendar year.

Note: The JBI ES online submission system (Editorial Manager) will be closed annually from mid-December to early January due to the Christmas holiday period, for specific closure dates please email jbi.library@adelaide.edu.au. Please note during this time, authors will not be able to access their manuscripts, or make new or revised submissions to the journal.

Implementation Reports

A JBI Implementation Report is one that follows JBI methodology and methods and utilises the JBI Practical Application of Clinical Evidence System (JBI-PACES) and is published in JBIEvI.

To accrue points for this as a core activity an Entity must have:

a) an Implementation Report accepted for publication in JBIEvI and
b) an author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, including their full Entity name as per their Legal Agreement with JBI Centres of Excellence are eligible to receive $3,000AUD per report accepted for publication, up to a maximum of $10,000AUD per calendar year.

Elective

Elective activities were established to recognise the breadth of collaborative work being undertaken by Entities across the JBIC.

Attendance at JBIC meetings

JBI maintains that regular communication with and between Entities across the JBIC is of great importance. As such, JBI invests in bringing Centre of Excellence Directors, Affiliated Group Convenors, Regional Chairs and JBI staff together via one annual online meeting and one annual face to face meeting.

To accrue points for this activity Centre of Excellence Directors or a nominated proxy must attend JBIC online meeting, face to face meeting and biennial colloquium (as detailed in Section 3 of this Handbook) in full. Affiliated Group Convenors are invited to attend all meetings as Observers and are eligible to accrue points for this activity.

Peer review for the JBIES

Scholarly peer review of content in JBIES is open to all Core Staff of JBI Entities. Every Core Staff member should be registered as a peer reviewer. Every effort is made to ensure that the workload associated with peer review is allocated across JBIC Entities and is aligned with individual areas of expertise.

To accrue points for this activity Entities must comply with all specified peer review requirements of the JBIES; and Entity Affiliation [Full Entity name as per the Entity Legal Agreement with JBI] must be listed in the ‘Institution’ field of each reviewer’s Editorial Manager profile.

JBI ES Core Staff must follow the below instructions to update their Peer Reviewer profile with the full Centre/Group name listed under ‘Institution’:

1) If you do not have an account in Editorial Manager, please register your details, otherwise please login as a reviewer. Registering and login in can both be accessed via http://www.editorialmanager.com/jbies/Default.aspx
2) At the top of the screen click ‘Update My Information’.
3) Scroll halfway down the page to the box titled ‘Institution Related Information’. Please ensure that you enter your full Centre of Excellence or Affiliated Group name in the ‘Institution’ field. i.e. ‘The Centre for Chronic Disease Management: A Joanna Briggs Institute Centre of Excellence’
4) Scroll to the bottom of the page and click ‘SUBMIT’

Note: if the required Centre/Group name is missing from the institution field in a peer reviewer profile then JBI will be unable to award eligible points for peer reviews conducted in the review period.

Note: Systematic Review Protocols, Systematic Review Reports and Implementation Reports that are re-submitted for peer review will be eligible to receive an additional 500 or 1000 points respectively, upon completion of the second round of peer review. This will be up to a maximum of two rounds of peer review.
**JBI Collaboration Handbook - 2020**

**JBI Editors**

Senior Associate Editors and Associate Editors are selected by the JBIES Editorial Office on the basis of their methodological and/or technical expertise and play a key role in ensuring content published is methodologically sound and of high quality. The primary responsibility is to conduct regular editorial reviews of manuscripts submitted to JBIES and decide if a manuscript is suitable for publication in the journal. An Associate Editor will not be assigned more than one manuscript at any given time and no more than one SR, one IR, or two protocols per month.

To accrue points for this activity Entities must comply with all specified editorial review requirements of JBIES and have served as an editor for at least 6 months during the reporting period.

Editorial Advisors serve on JBIES Editorial Advisory Board and provide guidance and advice to the editor-in-chief on all matters relating to the journal’s direction, policy and practice, to ensure its continual development and overall success and impact within the international scientific and evidence-based healthcare community. An Editorial Advisor may be called upon to review manuscripts submitted to JBIES (approximately 2 – 3 per year) to maintain abreast of the content and quality of submissions.

To accrue points for this activity Advisors must attend all JBIES Editorial Board meetings; respond to requests for advice from the editor-in-chief in a timely manner; and have served as an Advisor for at least 6 months during the reporting period.

**Clinical Partner Engagement**

Engaging with Clinical Partners is core to the JBI Mission of seeing evidence-based healthcare globally impacting policy and practice through the local and context-specific activities of each Collaborating Entity.

JBI Entities can nominate to work with a designated hospital or health facility (single site only) through completion and submission of the JBI Clinical Partner Engagement Form. The healthcare facility will then receive a complimentary subscription to JBI EBP Database via Ovid for the purpose of promoting and supporting an evidence-based approach to policy and practice. The subscription will be valid for three years from signing the JBI Clinical Partner Engagement Form, please note that if your Entity is disestablished prior to the three-year subscription expiry date your clinical partner subscription will be terminated upon disestablishment (see page 8).

Entities that choose to take up this opportunity must demonstrate the outcomes from this work. The purpose of clinical partnership is to close translational gaps that frequently occur across the evidence based cycle, through increased knowledge, awareness and ultimately use of JBI resources for best practice.

This activity seeks to recognise those Entities working directly in partnership with health professionals at the point of care. Entities that are hosted by a clinical institution may nominate their host institution as their clinical partner, but would need to demonstrate that significant effort had been made to engage a wide network of staff outside of the Entity’s Core Staff through training, workshops, presentations and meetings (as outlined below).

To accrue points for this activity Entities must:

- **a)** provide evidence of co-authorship of any peer reviewed published scholarly work related to JBI activity with staff of the clinical partner, including in languages other than English. The publication must have at least one author with an author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, and at least one author with an author affiliation that identifies them as a staff member of the clinical partner; and

- **b)** provide evidence of engagement activities conducted with the clinical partner and its staff through the completion of an online evaluation.

Engagement may be at unit, clinic or organisational wide levels, as determined by the JBI Entity. JBI recognises that both JBI Entities and their Clinical Partners have different needs, skills and available resources. Entities should therefore be free to exercise creativity and draw on their collective experience at working with local groups to transfer knowledge, skills and support a Clinical Partner in engaging with JBI evidence, tools and resources.

Examples of engagement strategies may include:

- Launching and facilitating a journal club using JBI critical appraisal instruments
- Providing brief sessions on EBHC, JBI Model, JBI Endorsement etc.
- Lunch time seminars to groups
- Grand Rounds
- Presenting at organisation research council/group meetings
- Working with organisation librarians or health informatics to enable simple and easy access to JBI resources
- Establishing EBHC champions and facilitators

Certainly there are many more types of activities and strategies that Entities are already using. Please consider the above as suggestions, as they are not intended to be prescriptive or limiting. For further guidance and strategies for Clinical Partnership Engagement please refer to the JBI CPE Resource available via the JBI Resource Portal.
**JBIC Mentorship**

JBIC recognises that mentorship can be an important and effective strategy for building skills and capacity across the JBIC. JBIC believes that group mentorship can produce a wide array of positive outcomes for both mentors and mentees and contribute to group cohesion and a sense of belonging to a strong organisational identity. The JBIC Mentorship activity is an opportunity for the JBI and JBIC to collectively build support systems, learning and development for new and existing Entities and to improve efficiency, productivity and the passing on of corporate knowledge and leadership.

Mentorship within the JBIC may be between:

a) Centres of Excellence
b) Centres of Excellence and Affiliated Groups
c) Centres of Excellence and proposed Affiliated Groups where the mentee group are preparing to join the JBIC as an Affiliated Group.

To accrue points for this activity the following must be completed:

a) the mentoring Centre must complete and co-sign the JBIC Mentorship registration form with the Mentee group for each year that parties enter into an agreement;
b) the Mentor and Mentee groups must participate in an annual online evaluation regarding the quality/ effectiveness of the partnership; and
c) the Mentor Centre must work with the Mentee group to complete a brief ‘Annual Review of Progress Report’ to be submitted with their JBIC Entity Annual Report.

Further guidelines and associated forms are available on the JBIC Resource Portal.

**Participation in JBI Methods Groups and or Membership of other JBI Committees**

JBI Methods Groups have been established to provide ongoing guidance to the JBI Scientific Committee on new and established methodologies related to evidence synthesis, transfer and implementation. These groups consist of a Chair and/or Convenor, an administrator, and relevant qualified individuals from across the JBIC and externally as required, in order to drive JBI methods forward. They are required to meet regularly and to develop formal written guidance on their area of expertise.

Similarly, JBI has other committees and working groups that are convened as required to provide guidance and contribute to the ongoing development of the JBI and JBIC.

Membership on these committees is currently established either through an open call to the JBIC for interested parties or, where appropriate, a targeted call to individuals from across the JBIC who have significant experience or expertise in a particular field.

To accrue points for this activity Entities must have:

a) participated in the methods group, committee or working group for a minimum of 6 months within the review period;
b) attended all face-to-face meetings, workshops and teleconferences; and
c) made a substantial contribution to the required output of the methods group, committee or working group, at the discretion of the group Chair/Convenor. For example, each methods group should produce at least one publication every two years as part of their group activity (excludes papers simply using the method).

**Systematic Review Updates**

JBI will consider Systematic Review Updates as Centre output where

- permission from the original authors has been sought
- a new protocol has been submitted to the JBIES justifying the need for an update
- where necessary all articles are re-appraised where new JBI tools have been developed
- where a new integrated synthesis is presented (i.e. including all previously included data); AND
- where a new report is submitted to the JBIES (i.e. not simply the original review with a narrative update at the end).

To accrue points for this activity Entities must

a) a Systematic Review Update accepted for publication in the JBIES; and
b) an author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, including their full Entity name as per their Legal Agreement with JBI.

Note: Systematic review protocols for an update accepted for publication in the JBISRIR will be awarded 1,000 points upon acceptance for publication of the corresponding Systematic Review Update in the JBISRIR. This will result in Systematic Review Updates being awarded 6,000 points upon acceptance for publication.

**Publication of scholarly works on JBI methods and methodologies**

Scholarly works are defined as publications in peer reviewed journals where there is clear evidence of the focus of the paper being specifically on JBI method and methodology.

To accrue points for this activity, Entities must:

a) have author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group, including the full Centre of Excellence or Affiliated Group name. i.e. The Adelaide Centre for Chronic Disease Management: A JBI Centre of Excellence (affiliations without the JBI addendum will not be accepted);
b) the publication must be clearly identifiable as a publication that relates to furthering the scholarly work of JBI/JBIC in the field of evidence synthesis, transfer or implementation; and
c) the publication must reference the original JBI Methods papers or publications in the JBIES.

Note: does not include systematic review protocols.
JBI Systematic Reviews or Implementation Reports published in other journals

JBI will recognise output published in other journals. To accrue points for this activity, these publications must have:

- an author affiliation that clearly identifies the authors as part of a JBI Centre of Excellence or Affiliated Group;
- be clearly identifiable as a SR or IR that has followed JBI methodology and method citing appropriate JBI methodology sources; and
- publications must be originals and not derivatives or duplicates (including co-publication with presentation of the same results) of material already published in JBIES).

Derivative publications published in other journals

Derivative papers may be recognised for points accrual where the paper is published in another journal. Authors seeking to publish a manuscript based on or related to an existing JBI protocol, systematic review or implementation report in another journal must contact the Editorial Office of JBI Evidence Synthesis (JBIES) at jbi.library@adelaide.edu.au with a written request for permission (including the proposed submission), prior to submission to the other journal. The JBIES Editorial Office will review the proposed submission to ensure it reflects a derivative publication (see below) and does not infringe the copyright of the JBI.

Any derivative publications that have not had written approval for submission for publication to another journal by the JBIES Editorial Office will not be eligible for points accrual.

Derivative publications based on the results of an original publication in the JBIES or those that contain some minor element of duplication (i.e. the same methods as existing publication), but pose a different research question and findings, may be eligible for points accrual if justification for a standalone publication is deemed reasonable by the JBIES editorial office.

To accrue points for this activity, Entities must:

- provide evidence of written approval from the JBIES Editorial Office;
- include an author affiliation that clearly identifies them as part of a JBI Centre of Excellence or Affiliated Group; and
- make explicit reference and include a citation to the original JBI publication, where possible.

Note: Co-publication (i.e. publications that replicate an existing publication), in whole or in part, including abridged or translated versions of an existing publication, is not eligible for points accrual within the JBIC Activity Matrix.

JBI Education Programs

These comprise either the JBI Comprehensive Systematic Review Training Program or the JBI Evidence-based Clinical Fellowship Program.

To accrue points for these activities Entities must have:

- run at least one complete JBI Evidence-based Clinical Fellowship Program or one complete Comprehensive Systematic Review Training Program in the preceding 12 months.

Regional Chairs

Regional Chairs work closely with Centres and Groups across each of the five JBIC regions and in coordination with the Joanna Briggs Institute (JBI) Global Engagement Office in Adelaide to coordinate regional communication and activity/ events and to foster regional collaboration.

Regional Chairs serve for a term of one year and are remunerated for their investment in this role.

Regional Chairs are nominated and elected by Centres and Groups within the Region and must be situated within a JBI Centre of Excellence. Eligibility requires that nominated individuals must be:

- A core staff member of a Centre of Excellence;
- Available to attend all online and face to face meetings for the year they are accepting a nomination; and
- Able to dedicate sufficient time to fulfil the roles and responsibilities as outlined in the ‘JBI Regional Chairs Policy’ (available on the JBIC Resource Portal)

To accrue points for this activity Regional Chairs take responsibility for ensuring that Entities within a region are working together by:

- a) organising at least one (1) annual face to face meeting per annum (at the annual JBIC CoD meeting);
- b) one (1) teleconference per annum (dates/agenda/ minutes to be provided as evidence with annual report); and
- c) providing JBI with an annual report of activity. and a regional operational plan. Regional operational plans may include, but are not limited to, regional meetings/events, teleconferences, collaborative work in relation to evidence synthesis, transfer or implementation.

Regions may also appoint a co-Chair who is Chair Elect.

Hosting a JBI/JBIC Symposium

A JBI/JBIC symposium is a minimum one-day event that promotes the work of JBI, the JBI model and/or methodologies and methods; and is open to registration by participants outside of the hosting organisation and (where applicable) the clinical partner.

The symposium must be separate to any programmatic event hosted or initiated by JBI Adelaide including colloquia and conventions.

To accrue points for this activity Entities must:

- a) Ensure that the Symposium title includes ‘a JBI Symposium’ as either a sub-heading or an addendum to the title of the event, for example:
  - Knowledge translation in rural PR China: a JBI Symposium
- b) Ensure that it is co-branded with the JBI logo (provided by the JBI Communications Office)
- c) Ensure that a proportion of the Keynotes are JBI focused (i.e. around methodology, the model, JBI approach, JBI work etc.)
- d) provide an event program, final number of participants and a web link where available.

Only hosting Centres/Groups are eligible to receive points for this activity. Points will not be awarded for attendance.
Hosting a JBI Colloquium

The JBI Colloquium is hosted by a JBI Centre of Excellence every second year. Entities must “bid” to host the event and submit a full proposal to the Global Engagement Office for consideration at least two years prior to the year of the event. The Standard Operating Procedures for JBI Colloquia and associated application forms are accessible via the JBIC Resource Portal.

It is the responsibility of the Host Centre to organise all aspects of the event including, but not limited to
- identification of appropriate dates, theme, venue (including AV and catering)
- keynote speakers
- development of an appropriate scientific program,
- recruitment of sponsors AND
- all other administrative activities (such as abstract submissions, scientific committee, registration management) as per the JBI Standard Operating Procedures.

Points will be awarded to Entities hosting a colloquium in two stages, with the first allocation in the planning year and the final allocation in the year the Colloquium is held.

JBIC ACTIVITY MATRIX GUIDELINES

Entity Agreement Term

JBI Centres of Excellence sign a 3-year Agreement with JBI, with an Effective Start date of 1st January the year following their Agreement Signing Date. This is to align with JBI’s calendar year annual review period for collaboration activities. Affiliated Groups sign a 5-year Agreement with JBI, with the first two years or part thereof being introductory years to establish the Group and its JBI activities, Effective Start date rules apply also. Entities have until the completion of their Agreement with JBI to meet their Key Performance Requirements, with annual targets for Centres of Excellence that determine eligibility to receive funding to attend the face to face Committee of Directors meeting (outlined below)

Annual Review

JBI’s annual review period for collaboration activities is 1st January – 31st December (calendar year). JBI conducts an Annual Review of Entity activity to evaluate Entity Key Performance Requirements in line with the JBIC Activity Matrix, in February of each year. Entities must complete and submit a ‘JBIC Entity Annual Report’ to the JBI Global Engagement Office by 31st January of each year (available from the JBIC Resource Portal).

Where the Annual Review indicates in the formative assessments that an Entity is not meeting their Key Performance Requirements, the Global Engagement Office will assist the Entity to review their operations ahead of the Summative Assessment.

CENTRES OF EXCELLENCE

Formative Assessment

In years one and two of their Agreement with JBI, Centres of Excellence will participate in a Formative Assessment of their collaboration activities and output to date. This will enable Centres to track their progress in line with the JBIC Activity Matrix and their 3-year Key Performance Requirements.

Centres of Excellence are expected on Formative Assessment in year one and two, to have achieved at least 23,000 points, including 10,000 from core activities OR 23,000 points from elective activities.
**Summative Assessment**

At the completion of their 3-year Agreement with JBI, Centres of Excellence will participate in a Summative Assessment of their collaboration activities and output over the course of their Agreement. In order to maintain their membership as a Centre of Excellence, Centres are required to meet the minimum Key Performance Requirements as outlined in Section 2 ‘Entity Terms of Agreement’ of this Handbook. Entities who do not meet these requirements will either:

a) be varied to Affiliated Group membership if they have achieved 30,000 points or more by the end of their summative assessment. Once membership has been varied, points may not be carried across to a new Agreement. Entities that are varied to Affiliated Group membership will need to maintain at least 12 months of Affiliated Group membership, and achieve the requisite points within that calendar year before re-applying for Centre of Excellence membership; or.

b) be disestablished if they achieve less than 30,000 points by the end of their summative assessment. Entities that are disestablished must wait at least 12 months before they are eligible to reapply to become an Affiliated Group.

**AFFILIATED GROUPS**

**Formative Assessment**

Affiliated Groups undertake a Formative Assessment each year for the first four years of their Agreement. This is specifically to aid groups who intend to seek Centre of Excellence membership. Formative Assessment provides Groups with an indication of their progress in line with the JBIC Activity Matrix and their 5-year Key Performance Requirements. Affiliated Groups seeking Centre of Excellence membership will need to accrue 23,000 points in one year, including at least 10,000 points from core activities (points may not be banked).

**Summative Assessment**

Affiliated Groups will participate in a Summative Assessment at the end of their 5-year Agreement. Groups which have output commensurate with the requirements for an Affiliated Group will be invited to renew their Agreement. Groups who have not met the Key Performance Requirements will be disestablished, unless by prior arrangement they have demonstrated through a new application that capacity and output is likely to improve.

**POINTS ACCRUAL**

**Centres of Excellence**

Centres of Excellence are required to accrue a minimum of 69,000 points, with at least 30,000 from core activities as per the JBIC Activity Matrix, by the completion of their Agreement with JBI. The annual target for Centres is 23,000 points, with at least 10,000 points from core activities. However this is a soft target that is not formally evaluated until the Summative Assessment at the completion of the Entity Agreement.

Centres may accrue points across the full range of core and elective activities outlined in the Matrix without restriction. There is no capping of points for any activity (i.e. Centres who participate in both a JBI methods group and JBI committee would be eligible to receive 10,000 points for that activity; or if a Centre has more than one mentorship agreement with multiple groups and fulfills the requirements of that activity they would be eligible to receive 10,000 points for each mentee group). Points are eligible to be rolled over to subsequent years within the 3-year Agreement. However, points will not be carried across from one Agreement to the next Agreement, even if the Agreement has reached its end and has automatically rolled over.

**Affiliated Groups**

Affiliated Groups are required to accrue a minimum of 30,000 points from core activities as per the JBIC Activity Matrix, by the completion of their Agreement with JBI.

Affiliated Groups may accrue points across the full range of core and elective activities outlined in the Matrix without restriction, however participation in elective activities is optional.

Affiliated Groups who wish to apply for Centre of Excellence membership are required to accrue a minimum of 23,000 points in one (1) year, as per the Activity Matrix in Section 2 of this Handbook, including at least 10,000 points from core activities.

**Core Activities**

 Entities must accrue points for core activities over the course of their Agreement with JBI. Centres of Excellence and Affiliated Groups must have accrued a minimum of 30,000 points from core activities which is equal to three (3) systematic reviews or implementation reports accepted for publication in the JBISRIR, by the end of their Agreement with JBI.

**Elective activities**

Entities accrue points for all elective activities on an annual basis only (for activities conducted within the calendar year review period). Entities must complete elective activities within the calendar year review period to be eligible to accrue points for those activities.
Collaborative activities between JBIC Entities and points allocation or transfer

Where JBIC Entities (Centres of Excellence and/or Affiliated Groups) work collaboratively on an activity and wish to share the allocation of points for that activity, Entities must complete the ‘JBIC Activity Matrix Points Allocation’ form (available on the JBIC Resource Portal) and submit it to the Global Engagement Office with their corresponding Entity Annual Reports. Points will not be divided without the completion of this form.

Where two or more Entities have worked collaboratively on a Systematic Review, each Entity is eligible to receive the full 12,000 points for that Review. Entities must however detail the contribution of each Entity to the review on the ‘JBIC Activity Matrix Points Allocation’ form.

Where an Affiliated Group seeks to apply to become a Centre of Excellence and it has been working in partnership with or mentored by a Centre of Excellence it must ensure that any activities/output that it seeks to accrue points for have not already had points allocated to its mentoring/partnering Centre of Excellence. If an Affiliated Group is applying to become a Centre of Excellence and its mentoring/partnering Centre wishes to transfer or share points allocation for collaborative work, it may do so using the ‘JBIC Activity Matrix Points Allocation’ form (available on the JBIC Resource Portal).

Any partnership agreements entered into by two or more JBIC Entities, and their corresponding terms of agreement, are independent of and not arbitrated by JBI.

Rollover of Points

Points cannot be rolled over to subsequent Agreements.

CENTRE OF EXCELLENCE FUNDING

Eligible Core and Elective Activities

Centres of Excellence are eligible to receive funding for a number of core and elective activities as per the JBIC Activity and Funding Matrix (pp. 9-12). Funding for these activities is paid retrospectively following the JBI Annual Review of Entity activity in February of each year. Affiliated Groups are not eligible to receive funding for any activities. Funding is capped at $10,000 AUD per Centre, excluding funding to attend the face to face Committee of Directors meetings, Clinical Partner Subscription fees, Regional Chair funding and JBI Colloquium seed funding, outlined below.

Face to Face Committee of Directors meeting

All Centres of Excellence are eligible for reimbursement for one return economy class airfare for the Centre Director or their proxy to attend the face to face Committee of Directors (CoD) meeting AND adjoining conference/ colloquium/symposium (5 days in full). The Director will receive an email from the Global Engagement Office outlining reimbursement entitlements for a return airfare. Requirements for reimbursement are:

- Travel receipt/tax invoice – from Travel Agent or on-line booking
- Travel itinerary – from Travel agent or on-line booking
- Completed Invoice accessed via the JBIC Resource Portal
- Proof of registration to the adjoining conference/ colloquium/ symposium

Visas

- It is the responsibility for each Director to organise and pay for their own Visas.
- Please let us know if you require a letter of invitation to support your Visa application.
- Please ensure you allow sufficient time for your Visa to be processed referring to https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-processing-times/global-visa-processing-times

Affiliated Groups are invited to attend at their own expense, however attendance is not mandated and will not affect their Agreement with JBI.

Regional Chair

Centre of Excellence Directors that serve as Regional Chair are eligible to receive AUD $1,000 remuneration for their role. This funding is paid retrospectively following the timely submission of a Regional Annual Report, a Regional Operational Plan, and the agendas and minutes of all regional meetings by 31st January.

JBI Colloquium

Centres of Excellence that host a JBI colloquium are eligible to receive AUD $5,000 seed funding (to be returned in full at the completion of the colloquium). In the event that the event does not occur this funding is repayable to JBI in its entirety.

Clinical Partner Subscription

To be eligible to receive a complimentary subscription for a nominated clinical partner, Entities must complete the ‘JBIC Clinical Partner Engagement Form’ expressing their intent to collaborate with a clinical partner (available on the JBIC Resource Portal). The clinical partner will then be contacted directly by Ovid to establish access to JBI databases and resources. This subscription will be valid for three years from the signing date on the form. If the KPIs for ‘Clinical Partner Engagement’ (pg 14) are not met within the three year subscription, the complimentary subscription will be terminated. It is the duty of the Collaborating Entity to inform their Clinical Partner of the subscription termination. If the KPIs are met the subscription will be renewed for a further 3 years, in line with the Entity Agreement.
SECTION 3: MEETINGS AND EVENTS

INTRODUCTION

JBI values the opportunity to meet with collaborators, subscribers and other key stakeholders to build relationships and collaborative engagement. It is important for JBI to ensure that it has strategies in place to build mutual understanding and to create cohesive teams at local, regional and international levels. As such, a range of meetings and events have been designed to meet this remit as outlined below.

COMMITTEE OF DIRECTORS MEETINGS

The Committee of Directors (CoD) meet two times per year, once online and once face to face, of which the location changes annually. Centre of Excellence Directors or their nominated proxy are encouraged to attend all CoD meetings and adjoining colloquium, conference or symposium in full.

OBSERVERS

Affiliated Groups are invited to attend all Committee of Directors meetings as Observers, including the face to face meeting (at their own cost). Centres of Excellence are permitted to bring up to one (1) additional staff member to the face to face meeting as an Observer free of charge. A fee of AU$300pp applies to any additional attendees.

Additional Observers may also be invited to attend the CoD meeting at the discretion of the JBI Global Engagement Office.

VOTING AND STANDING ORDERS

Only Centre of Excellence Directors or their nominated proxy have the right of vote. Affiliated Group Conveners and other Observers have the right of audience and debate (unless invited to vote by the meeting Chair).

Standing Orders which detail the principles and procedures that govern the Committee of Directors meetings can be accessed on the JBIC Resource Portal.

BIENNIAL JBI COLLOQUIUM

The JBI Colloquium is hosted by a JBI Centre of Excellence. This event is an opportunity for JBI and JBIC to showcase activity and achievements internationally, to invite speakers from other prominent organisations in the field, to network and share experiences and knowledge around evidence synthesis, transfer and implementation.

A full Committee of Directors meeting is hosted in conjunction with this event. Policies and Procedures for the host organisation of the Biennial JBI Colloquium are detailed in the JBI Colloquia Standard Operating Procedures, accessed via the JBIC Resource Portal.

Proposals to host a Colloquium

Any JBI Centre of Excellence that is interested in organising a JBI Colloquium can submit a proposal to the Global Engagement Office (GEO) jbic@adelaide.edu.au; the proposal template is available via the JBIC Resource Portal. Proposals must be submitted to the GEO by June 30, two years prior to the proposed Colloquium date. Proposals will be processed and evaluated in the first instance by the GEO, with successful proposals submitted to the JBI Executive Group and JBIC Regional Chairs for voting.

If there is more than one proposal submitted in any given year, unsuccessful proposals will be eligible to be resubmitted to the GEO for the next Colloquium.

JBI ADELAIDE BUSINESS MEETING

Every four years the annual general meeting of the Committee of Directors will be hosted by JBI Adelaide in Adelaide, South Australia. This may be accompanied by an internally focused Methodology Symposium or an Externally focused Convention/Conference.

JBIC REGIONAL SYMPOSIA AND MEETINGS

Regional symposia are encouraged as a means of furthering discussion and promotion of evidence informed approaches to the delivery of health policy and practice in each region. They are not a mandated activity, rather they can be hosted by JBIC Entities as an elective activity in the JBIC Activity Matrix (pg. 16) as deemed appropriate and feasible by each region.

JBIC Regional groups meet twice per year, once by teleconference and once face to face. Regional face to face meetings will take place as a part of the annual face to face CoD business meeting. Each Regional Chair is responsible for organising one additional teleconference with their region per annum, including agendas and minutes.
## Section 4: Glossary of Terms

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Best Practice Information Sheets</strong></td>
<td>Brief, clinically focused overviews of the key methods and findings of high quality JBI reviews with a focus on supporting clinical care and decision-making.</td>
</tr>
<tr>
<td><strong>CAN-IMPLEMENT®</strong></td>
<td>CAN-IMPLEMENT® is an online resource that provides a practical guide to assist individuals and groups engage in adapting existing evidence-based practice guidelines used within their institution or community.</td>
</tr>
<tr>
<td><strong>Clinical Fellows</strong></td>
<td>Participants who complete the Evidence-based Clinical Fellowship Program are admitted as Clinical Fellows of JBI.</td>
</tr>
<tr>
<td><strong>Clinical Leadership Workshop</strong></td>
<td>A one-day workshop that provides participants with information and practical techniques to create a more positive, personal and professional culture back in their workplace. It also helps participants to identify strategies that will assist in managing difficult behaviour, building productive teams and implementing change, thereby enabling effective leadership of projects and people.</td>
</tr>
<tr>
<td><strong>Clinical Online Network of Evidence for Care and Therapeutics (COnNECT+)</strong></td>
<td>COnNECT+ is JBI’s web-based facility that provides users with resources and tools to search, appraise, summarise, embed, utilise and evaluate evidence-based information.</td>
</tr>
<tr>
<td><strong>Collaborating Entity</strong></td>
<td>A JBI Centre of Excellence or a JBI Affiliated Group. Also referred to as a ‘JBIC Entity’.</td>
</tr>
<tr>
<td><strong>Collaborative Activities</strong></td>
<td>Those activities undertaken by Collaborating Entities as described in the JBI Collaboration (JBIC) Handbook Activity Matrix.</td>
</tr>
<tr>
<td><strong>Committee of Directors (CoD)</strong></td>
<td>The Committee of Directors (CoD) is the principal strategic planning committee of the JBI Collaboration.</td>
</tr>
<tr>
<td><strong>Completion Date (Entity Agreement)</strong></td>
<td>The period of 3 or 5 years from the Entity Agreement Effective Start Date.</td>
</tr>
<tr>
<td><strong>Comprehensive Systematic Review Training Program</strong></td>
<td>A one, three or five day program which incorporates both theory and hands on experience so that participants learn how to develop a focused question, search for relevant literature, appraise and synthesise evidence arising from research. By the end of the program participants complete a protocol and are ready to commence their review.</td>
</tr>
<tr>
<td><strong>Consultancy Services</strong></td>
<td>The skills and expertise of JBI staff are provided in return for remuneration from an external funder. Consultancy may cover activities such as expert opinion, analysis and process development. A research consultancy may result from a tender or individual negotiation.</td>
</tr>
<tr>
<td><strong>Critical Appraisal Tools</strong></td>
<td>JBI critical appraisal tools aid in the process of assessing the trustworthiness, relevance and results of published papers.</td>
</tr>
<tr>
<td><strong>Editorial Manager®</strong></td>
<td>The online submission and review system for the JBI Database of Systematic Reviews and Implementation Reports (JBISRIR).</td>
</tr>
<tr>
<td><strong>Editorial Advisory Board</strong></td>
<td>The JBISRIR is governed by an international editorial advisory board comprising leading practitioners and researchers within evidence-based healthcare from around the world. The role of the editorial advisory board is to guide the development of the journal and its future direction including the provision of advice and feedback on journal editorial policies, processes and content. Members of the editorial advisory board also advocate for the journal and promote its content; conduct periodical reviews of manuscripts submitted to the journal; and provide expert methodological and/or topical advice to the Editor-in-Chief on editorial issues.</td>
</tr>
<tr>
<td><strong>Effective Start Date (Entity Agreement)</strong></td>
<td>The date that the Entity Agreement legally begins (normally 1st January following the signing date).</td>
</tr>
<tr>
<td><strong>Entity Affiliation</strong></td>
<td>Full Entity name as per the Entity Agreement listed in required documents and databases (i.e. in the author affiliation on all publications and in peer reviewer Editorial Manager profiles).</td>
</tr>
<tr>
<td><strong>Entity Agreement</strong></td>
<td>The Collaborating Entity Legal Agreement signed between the University of Adelaide (for JBI) and the Entity host organisation.</td>
</tr>
<tr>
<td>----------------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Entity Terms of Agreement</strong></td>
<td>Terms and conditions of the Entity Agreement that governs Centre of Excellence and Affiliated Group membership.</td>
</tr>
<tr>
<td><strong>Evidence Implementation</strong></td>
<td>Evidence implementation is a purposeful and enabling set of activities designed to engage key stakeholders with research evidence to inform decision-making and generate sustained improvement in the quality of healthcare delivery. Components include a context analysis, the facilitation of practice change and evaluation of process and outcome.</td>
</tr>
<tr>
<td><strong>Evidence Summaries</strong></td>
<td>A summary of the current evidence to inform decision making at the point of care, in a useful, easy to read format.</td>
</tr>
<tr>
<td><strong>Evidence Synthesis</strong></td>
<td>Evidence synthesis is the evaluation or analysis and collation of research evidence and opinion on a specific topic to aid in decision-making in health care. Components include systematic reviews, evidence summaries and guidelines.</td>
</tr>
<tr>
<td><strong>Evidence Transfer</strong></td>
<td>Evidence transfer is the active, participatory process to advance access to and uptake of evidence in local contexts. It is a causal phenomenon consisting of factors that enable, facilitate and support evidence implementation that is more than just a single interaction. It incorporates active dissemination, systems integration and education.</td>
</tr>
<tr>
<td><strong>Evidence-based Clinical Fellowship Program (EBCFP)</strong></td>
<td>A six-month program which involves two five-day intensive training workshops at JBI and a six-month evidence-based implementation project. Participants develop and engage in processes to further develop their leadership skills and strengths, conduct clinical audits, develop and execute strategies to implement evidence-based practice in their own work environment.</td>
</tr>
<tr>
<td><strong>Evidence-based Healthcare (EBHC)</strong></td>
<td>Process of using evidence to inform healthcare practices. JBI defines evidence-based healthcare as decision-making that considers the feasibility, appropriateness, meaningfulness and effectiveness of healthcare practices. The best available evidence, the context in which care is delivered, the individual patient and the professional judgement and expertise of the health professional inform this process.</td>
</tr>
<tr>
<td><strong>Evidence-based Recommended Practices</strong></td>
<td>Step-by-step reliable evidence-based best practice standards and principals designed by clinicians for clinicians across clinical specialties in acute care, long-term care and rehabilitation therapy.</td>
</tr>
<tr>
<td><strong>Expert Reference Group (ERG)</strong></td>
<td>Expert Reference Groups support the JBI COmNECt+ and JBI EBP Database specialities. Each group consists of national and/or international members with experience and expertise in a speciality. Entry is by invitation, either by the Chair or JBI. Expert Reference groups meet up to four times per year via teleconference, and provide review / feedback on database content.</td>
</tr>
<tr>
<td><strong>GRADE Workshop</strong></td>
<td>Is a 1-day workshop designed for systematic reviewers, guideline developers and others wanting to learn more about GRADE methodology, particularly the creation of Summary of Findings tables and Evidence Profiles. The course includes theory along with hands-on activities.</td>
</tr>
<tr>
<td><strong>International Journal for Evidence-based Healthcare (IJ EBHC)</strong></td>
<td>A fully refereed journal that publishes manuscripts relating to evidence-based medicine and evidence-based practice. It publishes papers containing reliable evidence to assist health professionals in their evaluation and decision-making, and to inform health professionals, students and researchers of outcomes, debates and developments in evidence-based medicine and healthcare.</td>
</tr>
<tr>
<td><strong>JBI</strong></td>
<td>An international not-for-profit research and development centre within the Faculty of Health and Medical Sciences at the University of Adelaide, South Australia, focused on promoting and supporting evidence-based practice globally.</td>
</tr>
<tr>
<td><strong>JBI Adelaide GRADE Centre</strong></td>
<td>As the first GRADE Centre in Australia and New Zealand, the Centre is a central hub of GRADE related research and teaching in the region. The Centre offers training in GRADE methods and contributes to the scientific development of GRADE methods.</td>
</tr>
<tr>
<td><strong>JBI Advisory Committee</strong></td>
<td>The JBI Advisory Committee is the governing body of the Joanna Briggs Institute that is appointed by and accountable to the Executive Dean, Faculty of Health and Medical Sciences, the University of Adelaide.</td>
</tr>
<tr>
<td><strong>JBI Buzz</strong></td>
<td>JBI Buzz is a monthly newsletter which contains news stories from around the world relating to JBI and the JBI Collaboration; a listing of JBI tools, resources and publications; and a global calendar of events that are hosted by JBI and Collaborating Entities.</td>
</tr>
<tr>
<td><strong>JBI Collaboration (JBIC)</strong></td>
<td>See ‘JBIC’</td>
</tr>
<tr>
<td>JBI EBP Database (Ovid)</td>
<td>The complete evidence-based practice content set from the Joanna Briggs Institute available via OvidSP.</td>
</tr>
<tr>
<td>------------------------</td>
<td>--------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>JBI Endorsement</td>
<td>JBI Endorsement is a recognition awarded to healthcare organisations that demonstrate commitment to evidence-based healthcare and an organisational-wide culture of innovation and excellence.</td>
</tr>
<tr>
<td>JBI Evidence Implementation</td>
<td>Evidence implementation is a purposeful and enabling set of activities designed to engage key stakeholders with research evidence to inform decision-making and generate sustained improvement in the quality of healthcare delivery. Components include a context analysis, the facilitation of practice change and evaluation of process and outcome.</td>
</tr>
<tr>
<td>JBI Evidence Synthesis</td>
<td>Evidence synthesis is the evaluation or analysis and collation of research evidence and opinion on a specific topic to aid in decision-making in health care. Components include systematic reviews, evidence summaries and guidelines.</td>
</tr>
<tr>
<td>JBI Evidence Transfer</td>
<td>Evidence transfer is the coactive, participatory process to advance access to and uptake of evidence in local contexts. It is a causal phenomenon consisting of factors that enable, facilitate and support evidence implementation that is more than just a single interaction. It incorporates active dissemination, systems integration and education.</td>
</tr>
<tr>
<td>JBI Implementation Report</td>
<td>A JBI Implementation Report is one that follows JBI methodology and methods and utilises the JBI Practical Application of Clinical Evidence System (JBI-PACES) and is published in the JBISRIR.</td>
</tr>
<tr>
<td>JBI Methodology Groups</td>
<td>JBI Methodology Groups examine JBI methodologies in relation to the conduct of systematic reviews of different evidence types.</td>
</tr>
<tr>
<td>JBI Mission</td>
<td>To synthesise, transfer and facilitate the implementation of the best available evidence related to the feasibility, appropriateness, meaningfulness and effectiveness of health policy and practice.</td>
</tr>
<tr>
<td>JBI Model</td>
<td>The JBI Model of Evidence-based Healthcare was developed in 2005 and updated in 2016. The inner circle represents the pebble of knowledge while the “inner wedges” provide JBI’s conceptualisation of the steps involved in the process of achieving an evidence-based approach to clinical decision-making. The “outer wedges” operationalise the component parts of the model and articulate how they might be actioned in a pragmatic way.</td>
</tr>
<tr>
<td>JBI Reviewers Manual</td>
<td>The JBI Reviewers Manual is designed to provide authors with a comprehensive guide to conducting JBI systematic reviews. It describes in detail the process of planning, undertaking and writing up a systematic review of qualitative, quantitative, economic, text and opinion based evidence. It also outlines JBI support mechanisms for those doing review work and opportunities for publication and training. The JBI Reviewers Manual should be used in conjunction with the JBI SUMARI Tutorials and FAQs.</td>
</tr>
<tr>
<td>JBI Systematic Review</td>
<td>A JBI Systematic Review follows JBI methodology for guidance and reports. There are currently 6 different types of JBI systematic reviews.</td>
</tr>
<tr>
<td>JBI Systematic Review Protocol</td>
<td>A JBI systematic review protocol describes the rationale, hypothesis, and planned methods of the review, follows JBI methodology and methods; utilises JBI- SUMARI; and is published in the JBISRIR. It should be prepared before a review is started and used as a guide to carry out the review. Detailed protocols should be developed a priori, made publicly available, and registered in a registry such as PROSPERO.</td>
</tr>
<tr>
<td>JBI Trainers Portal</td>
<td>The JBI trainers portal is a repository for current teaching materials, guidance and resources for the CSRTTP and EBCFP. It is only for accredited JBI trainers who are active members of the JBI Global Training Network.</td>
</tr>
<tr>
<td>JBI Vision</td>
<td>A world in which the best available evidence is used to inform decision making at the point of care to improve health outcomes in communities globally.</td>
</tr>
<tr>
<td>JBIC</td>
<td>An international group of self-governing Collaborating Entities, initiated and coordinated through the Joanna Briggs Institute that promote and support the synthesis, transfer and utilization of evidence through identifying feasible, appropriate, meaningful and effective healthcare practices to assist in the improvement of healthcare outcomes globally.</td>
</tr>
<tr>
<td>JBIC Activity Matrix</td>
<td>A framework that details the core and elective activities that JBIC Entities may undertake to maintain their JBI Collaborating Entity membership.</td>
</tr>
<tr>
<td><strong>JBIC Core Staff</strong></td>
<td>JBC Core Staff are those persons that are integral to the primary activities of any JBC Entity. Including, but not limited to, persons that have an essential administrative role; that lead synthesis or implementation projects; that are key to delivering educational programs; and are key to fostering and establishing collaborations. Core staff members would normally work with a Collaborating Entity on an ongoing basis in a defined FTE capacity.</td>
</tr>
<tr>
<td><strong>JBIC Entity</strong></td>
<td>See ‘Collaborating Entity’</td>
</tr>
<tr>
<td><strong>JBIC Hub</strong></td>
<td>An online network for all JBC documents accessed via the joannabriggs.org website.</td>
</tr>
<tr>
<td><strong>JBIC Resource Portal</strong></td>
<td>Private online network for all JBC documents accessed via joannabriggs.org</td>
</tr>
<tr>
<td><strong>Node</strong></td>
<td>The JBI ERP Database via Ovid SP is indexed by speciality healthcare and practice areas. Each speciality has a JBI academic lead and is supported by an Expert Reference Group and Corresponding Reference Group.</td>
</tr>
<tr>
<td><strong>Online Courses</strong></td>
<td>JBI offers a range of educational online courses that are accredited for Continuing Professional Development in the USA. These courses include JBI Best Practice Interactive Clinical Courses, JBI Advanced Courses for Experienced Researchers and Evidence-based Practice Core Concept Courses.</td>
</tr>
<tr>
<td><strong>Postgraduate Research Degrees – Doctor of Philosophy (Evidence-based Healthcare)</strong></td>
<td>A postgraduate research degree that aims to train independent researchers with the skills, knowledge and experience necessary to become active, independent contributors to the global development of evidence-based healthcare.</td>
</tr>
<tr>
<td><strong>Practical Application of Clinical Evidence System (PACES)</strong></td>
<td>PACES is an online audit tool that allows a comparison of data with other organisations of similar size and setting and offers ideas on how to facilitate a process of change in relation to the use of evidence in practice on a given activity or intervention.</td>
</tr>
<tr>
<td><strong>PROSPERO</strong></td>
<td>An International prospective register of systematic reviews</td>
</tr>
<tr>
<td><strong>Rapid Appraisal Protocol internet database (RAPid)</strong></td>
<td>JBI’s online critical appraisal tool allowing submission of a completed paper to be peer reviewed.</td>
</tr>
<tr>
<td><strong>Recommended Practices</strong></td>
<td>Recommended practices are processes of care that describe and/or recommend certain routines or procedures on a selected clinical topic and are based on the best available evidence. The purpose of recommended practices are to provide healthcare professionals with basic principles to perform a specific practice safely and effectively.</td>
</tr>
<tr>
<td><strong>Registered Titles</strong></td>
<td>A list of registered systematic reviews that are currently underway.</td>
</tr>
<tr>
<td><strong>Scientific Writers</strong></td>
<td>JBI Scientific Writers are persons external to JBI who play an integral role in updating JBI Evidence Summaries. Scientific Writers usually have a background in health and have applied to become a scientific writer for JBI. They are renumerated for updating evidence summaries. Scientific Writers become named updaters of the published Evidence Summaries.</td>
</tr>
<tr>
<td><strong>Signing Date (Entity Agreement)</strong></td>
<td>The date of execution by the last Party to the Entity Agreement.</td>
</tr>
<tr>
<td><strong>System for the Unified Management of the Assessment and Review of Information (SUMARI)</strong></td>
<td>JBI’s software for the systematic review of literature designed to assist researchers and practitioners to appraise and synthesise evidence of feasibility, appropriateness, meaningfulness and effectiveness; and to conduct economic evaluations of activities and interventions.</td>
</tr>
<tr>
<td><strong>Train-the-Trainer: CSRTP</strong></td>
<td>The JBI Train-the-Trainer: CSRTP is designed to enable JBI Collaborating Entity staff to become accredited trainers, to deliver the CSRTP in a manner that maintains consistency in the teaching and learning processes employed, and to help ensure that trainers uphold the reputation and standing of JBI.</td>
</tr>
<tr>
<td><strong>Train-the-Trainer: EBCFP</strong></td>
<td>The JBI Train-the-Trainer: EBCFP is designed to enable JBI Collaborating Entity staff to become accredited trainers, to deliver the EBCFP in a manner that maintains consistency in the teaching and learning processes employed, and to help ensure that trainers uphold the reputation and standing of JBI.</td>
</tr>
<tr>
<td><strong>Wolters Kluwer Health/ Ovid</strong></td>
<td>The global commercial distributor of JBI’s Evidence-based practice resources and tools and JBI online educational courses.</td>
</tr>
